Javascript - Modern build pipelines - npm, yarn, webpack | HTML5/CSS3 - Sass, Bootstrap, Tailwind, Styled components, Material UI | **Libraries & Frameworks** - React, Node.js, Express.js, Vue.js | **Database** - PostgreSQL, ORM, MongoDB, Mongoose, ODM | **Other** - RESTful Routing JSON, Git, Command Line | **Design Tools** - Adobe Creative Suite CC, Sketch, Zeplin, Figma | **Testing/Accessibility** - AQA, Litmus

EXPERIENCE

General Assembly | Remote - Software Engineering Fellow

Summer 2021

Completed a Full-stack software engineering immersive course in an intensive, twelve-week, 450+ hour program focused on product development fundamentals, object-oriented programming, MVC frameworks, data modeling, and team collaboration strategies.

Dollar Shave Club | Marina Del Rey, CA - Software Engineer, Front End UI - Email/Landing

November 2018 - July 2020

- Developed 2-3 emails per week to a subscriber base of 3 million customers, that scaled visually across all major supported email clients.
- Worked with the team on an ESP Migration project.
- Worked extensively with Litmus for testing to ensure cross-client/browser support.
- Adhered to WCAG 2.0 AA Accessibility Standards to ensure optimal reach for our email communications and web content to people with disabilities.
- Collaborated closely with Engineering, Product, and Design teams in weekly agile sprints to develop landing pages.
- Leveraged custom hooks to dispatch reducers to fetch data from the Contentful API.
- Utilized Git workflows to capture landing page development locally, communicate through code reviews exploration, and manage/monitor deployments of landing pages via Git.

Dermstore (Target Co.) | El Segundo, CA - Email Developer (Contract)

April 2018 - July 2018

- Performed email development for Target's online beauty e-commerce store.
- Worked within Salesforce as the Email service provider.
- Performed testing of emails to ensure cross client support

KERN | Woodland Hills, CA - Front End Developer (Contract)

February 2018 - March 2018

- Performed email development for national clients AT&T(DIRECTV) and American Express.
- Collaborated with the Development and Account teams to adhere to client needs.
- Tested emails within Email on Acid to ensure cross client support.

TVGLa | Los Angeles, CA - Front End Developer (Contract)

November 2017 - January 2018

- Collaborated with a team to build two SPA websites for the client Fox Searchlight; performed maintenance of the Dreamworks Animation website for *Trolls*.
- Leveraged Vue to componentize our templates.
- Implemented SASS to promote cleanliness and reuse throughout the codebase.

Advisor Launchpad | Manhattan Beach, CA - Front End Developer

February 2014 - September 2015

- As a member of the Web Services team that specialized in financial industry clients, I collaborated with the Implementation team and other developers.
- Built HTML templates leveraging Bootstrap, jQuery, and Sass; then converted them into ASP.NET templates for use within Ektron.
- Promoted and maintained best UX practices and provided creative solutions to complex customer requests.

Deutsch | Los Angeles, CA - Web Content Manager

March 2011 - March 2012

- Worked as part of a large tech team at the leading ad agency of the time.
- Maintained and did website development for clients including Volkswagen and HTC.
- Worked closely with engineering, design, and a dedicated QA team to ensure timelines were upheld.
- Responsible for frontend development on Anthem's refresh across 5 Anthem Connects brands.

SOFTWARE DEVELOPMENT PROJECTS

Clambr - React, Express, MongoDB/Mongoose, Axios, jsonWebtoken, bcrypt, Bootstrap, Styled

Components, Asana, Figma, Zeplin

- Created a RESTful app as part of a group project with both the SEI and UX cohorts to provide a way to keep track of jobs applications.
- Implemented authentication/authorization.
- Styled with custom CSS and Bootstrap.

Lite-Brite - React, TypeScript, Sass

- Converted an existing project done in React to learn TypeScript within a short sprint.
- Styled with custom Sass.

FreebieMe - Node.js, JavaScript, Sequelize, Postgres, Express, Bootstrap

- Created an app for users to post items they are offering to give away with full create, read, update, delete (CRUD) operations hitting all RESTful API calls.
- Implemented ES6 tagged template literals.
- Styled with custom CSS and Bootstrap.

EDUCATION

University of Arkansas - Bachelor of Arts (BA), Psychology

Fayetteville, AR
